

Welcome **NEW** to our website

TENTS

Thanks for taking the time to surf our new web site. Whether you're a current customer keeping up to date on our design changes, a prospective customer looking at our innovative, ORIGINAL tent products, or you're interested in our new line of lighting or accessory products . . . you've come to the right place.

ACCESSORIES

Eureka! has been in the 'party' tent industry for more than 100 years. Our commitment and passion for this industry clearly shows in our products, services and people. Whether we're chairing a committee for the advancement of safety for tent installation . . . or helping train your crew on the new EISpan clearspan system . . . our goal is to be your business partner, not just your tent manufacturer.

HAVING A PARTY?

How do we do this? It's quite simple . . . we listen! We take great pride in our personal relationships with people in the know. Our customers provide feedback on a daily basis, and our prospective customers are always telling us about the types of products and services they are looking for -- and we deliver!

Surf our new site, follow the links and then let me know what you think! Your input and comments help us build better tools for your business. We only succeed when YOU succeed!
